

# Year 6 transition

## Art and Design Summer work

For your transition summer work you will be learning about the different elements of the colour wheel. Please watch the video for extra guidance.

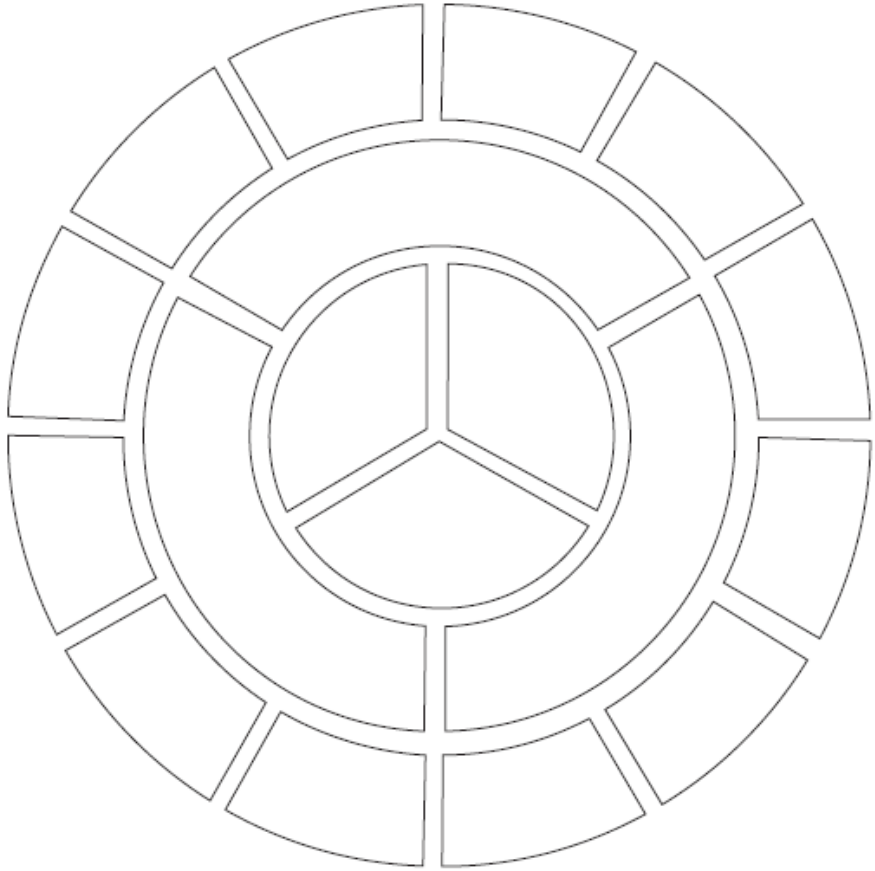

### You will need:

- A paint brush
  - Coloured paints
  - A water pot
- Or
- Coloured pencils
- Or
- Found coloured objects around the house.

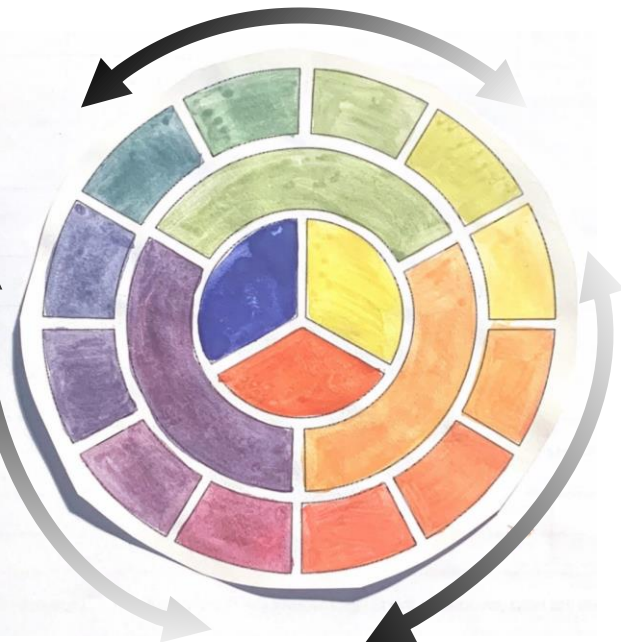

### Task

Complete the colour wheel on the right. You can either paint or use coloured pencils to do this.

A third option is to create the colour wheel using found objects from around your house. If you chose this option please print your image to present to Miss Coad or Miss Callaghan in September.

**Darker to Lighter**  
Using the primary colours

### Primary Colours:

**Primary** colours are three key colours - Red, Blue and Yellow. They cannot be made from any other colour

### Secondary Colours:

If you mix equal amounts of the primary colours, you get the **Secondary colours** - Purple, Green and Orange.

### Tertiary Colours:

If you mix a primary with a secondary colour, in a ratio of 2:1, you get a **Tertiary colour**. Red-Orange, Blue-Green etc.

## evaluation

When you **evaluate**, you judge or assess something.

**Evaluation** is really important in Art and Design, Design and Technology and Food and Nutrition, as it helps you to identify what was successful about your product or artwork and what could be improved. This will help you to make an even better product next time.

After completing your colour wheel, please evaluate it.

Use the keywords and sentence starters, along with the example to help.

Hand your completed evaluation and colour wheel in to Miss Coad or Miss Callaghan when you start school.

Bold	Secondary	Even
Vibrant	Tertiary	Clear
Subtle	Cool	Strong
Pale	Warm	Light
Primary	Neutral	Dark

### Example

**I am really pleased with** *how evenly I painted the colour wheel. I also managed to stay within the lines.*
